STORES WILL CLOSE SATURDAY

Saturday next, July 19th, has been proclaimed "Peace Day" and is a Public Holiday. All stores, the Banks and Post Office will be closed on that day. The Post Office will only be open for a few minutes after the arrival of trains.

Western Canada Eventually Manufacturing Centre

The demand for a foreign trade commission to represent the Western Provinces of Canada, exclusively, originated by the Alberta, Canada, Industrial Development Association and urged by the president of that organization from ocean to ocean in many special addresses before public bodies, seems now to be certain of ultimate fulfilment, if one may judge by advices received at the headquarters of the Canadian Industrial Congress, August 11-16, from many sources.

Advices to this effect are received from Winnipeg, from Vancouver and even from Ottawa, and it is now apparent that many of the members of the Dominion Government look with favor on the idea.

The proposal for a foreign trade commission for the West was originated by Mayor M. A. Brown, of Medicine Hat, president of the Alberta Industrial Association. It is based on the belief that only by a proper investigation of the foreign markets for Western Canadian products can the West build up industry to its maximum. Such an investigation, it is explained by Mayor Brown, would deal specifically with those possible markets for Canadian products lying on and adjacent to Pacific Ocean routes of traffic and the vast undeveloped Oriental marts.

Mayor Brown holds to the belief that eventually Western Canada will some day be manufacturing on a larger scale than Eastern Canada because of the great potentialities in this connection in China and Japan as well as along the western coast of South America and in Australia.

"The world does not realize," Mr. Brown points out, "that one-seventh of the population of the globe is living and striving and working along the banks of one river alone in China." The possibility of the development of this wonderful market is just one aspect of the great trade which Western Canada and the western portion of the United States will have the great opportunity to deal with.

"Great economists of the day, men with vision, see the development of the Pacific regions as the most striking aspect of the future of our continent. I may add that by Pacific regions I include those inland empires such as our own, Alberta, Canada."

Strong support is being given the project for a Western foreign trade commission especially in Vancouver, B.C., Seattle, Portland, and other western cities more easterly, such as Winnipeg, Regina, and Saskatoon. All these cities will be represented by good delegations at the forthcoming Industrial Congress, to be held in Alberta in August. The principal or "educational" sessions of this Congress will be held at Calgary, Canada, August 13 and 14. The industrial men of the continent are being asked to participate.

The Rosebud Y.M.C.A. Organization Formed

Last Thursday afternoon at Olds, the Rosebud Y. M. C. A. district including the towns of Innisfail, Olds, Didsbury, Crossfield and Airdrie, was organized at a convention called to discuss the proposition. Meetings of interested men had already been held in the different towns and a desire had been expressed to have a Y.M.C.A. established. The following men were present as delegates: From Innisfail, A. Aspinall, Rev. P. Fisher, Dr. Gribble and G. T. Ingham; from Olds, O. S. Moore, Rev. G. G. Webber, Rev. J. S. Shortt, W. K. Gibson, L. H. Smith; from Didsbury, N. S. Clark, P. R. Reed, H. E. Pearson, H. W. Chambers, and Rev. D. MacGregor. Owing to previous engagements, the delegates from Crossfield and Airdrie were unable to attend but sent word their towns wanted to be included.

Before the convention opened, the delegates were entertained at a most delicious luncheon served by the ladies of the Presbyterian church in the schoolroom of the church.

After brief addresses had been given by the chairman W. K. Gibson, Ald. O. S. Moore welcoming the delegates to Olds, C. B. McKinnon, O. D. Austin and C. D. Thornton, members of the Y. M. C. A. territorial staff, dealing chiefly with the matters of the aims, principles and methods of rural Y. M. C. A. work, it was moved by Mr. Reed of Didsbury and seconded by Mr. Aspinall of Innisfail that the proposal be approved and organization be proceeded with. The following were appointed to the district directorate: For Olds, L. H. Smith, R. A. Craig, O. S. Moore, E. L. Grimes, and A. C. Bury; for Didsbury, P. R. Reed, W. J. Hillyard, W. Miller, N. S. Clarke, and H. E. Pearson; for Innisfail, A. Aspinall, J. W. Curry, D. E. R. Ewer, Dr. A. T. Turner and A. Lennox. The members for Crossfield and Airdrie will be chosen later. It was decided to start at once to secure the necessary funds to finance the Association and as soon as that is done a secretary who will devote his entire time to the work will be called. Pending a meeting of the district committee, L. H. Smith and R. A. Craig were named provisional chairman and secretary-treasurer to carry out the financial campaign. Olds was selected as headquarters for the district.

The type of work done by the rural Y.M.C.A. will no doubt appeal to the people of this community and will be welcomed especially by the young men and boys.

**Kidney Back Pains
Permanently Cured****Dr. Hamilton Guarantees Prompt
and Thorough Cure**

I can cure you.
I have a remedy that has never failed in kidney disease.

My wonderful preparation is known as Dr. Hamilton's Pills of Mandrake and Butternut.

I guarantee Dr. Hamilton's Pills will restore the worst case of kidney suffering.

Pain in the back, sides and hips will be relieved.

Dizzy spells, headache and reeling sensations will be quickly remedied.

Distressing bladder complications, frequent calls, brick dust and sediment I guarantee will entirely disappear under Dr. Hamilton's Pills.

If your run-down and languid condition can't be cured by Dr. Hamilton's Pills, then you are hopeless.

In thousands of cases Dr. Hamilton's Pills have restored health and more; they have built up constitutions that defied further inroads of kidney disease.

Purely a vegetable remedy, free from injurious minerals like mercury and calomel, mild enough for children to use, where can you find a remedy in efficiency to approach Dr. Hamilton's Pills?

To be candid, you can't.

All dealers sell Dr. Hamilton's Pills, in yellow boxes, 25c.

**Britain Planning
Air Supremacy****Government Subsidies Urged By
Committee of Civil Investors**

London.—Great Britain is actively engaged in laying the foundation of a world-wide aerial supremacy as complete as was her maritime supremacy prior to the war. Her plans to achieve this important object were started even before this country entered the war.

Moreover, she is completely convinced that aerial transportation will revolutionize her widespread empire and firmly weld it together by the speed that is the chief attribute of aircraft.

Realizing the importance aeronautics would play in the economic development of the world in general, and the reconstruction period after the war in particular, the British Government appointed the Civil Aerial Transport Committee May 22, 1917, to "consider and report to the Air Ministry with regard to:

(1) The steps which should be taken with a view to the development and regulation after the war of aviation for civil and commercial purposes from a domestic, imperial and an international standpoint.

(2) The extent to which it will be possible to utilize for the above purpose the trained personnel and the aircraft which the conclusion of peace may leave surplus to the requirements of the naval and military services of the United Kingdom and overseas dominions."

The report lays down the possibility of commercial air routes, throughout British dominions, but says in connection therewith:

"We recognize, however, that military considerations must override all others."

By far the most remarkable portion of the report is the reservation made by Frank Pick, one of the members of the committee, when signing it. In it Mr. Pick says:

"The strategic position of this country in relation to the air differs fundamentally from the strategic position in relation to the sea. So long as the shores of the North Atlantic are occupied by the leading civilized peoples so long the British position is advantageous as a centre of sea power. But if air power is to usurp to any degree

the place of sea power, and this seems probable so long as flight over land holds appreciable advantages over flight over sea, so the position of a country placed centrally as regards land must be superior to the position of a country placed centrally as regards water.

"The right to pass across other national territory without let or hindrance, relief from varying terms and conditions attaching to flight which may be onerous and irksome, the absence of customs restraints or tariff restrictions, and generally the absence of the apparatus for hampering or artificially routing trade are all wanted. On all these grounds it is submitted that the case for an international settlement is strengthened."

The committee has exhaustively studied the possibilities of aerial transport with rigid dirigible airships. The investigation covers special voyages made in the giant sixty-ton airships of the R-34 type developed by the naval section of the British air force.

General Maitland himself in a review of the airship situation makes this prediction:

"The many practical advantages which the airship possesses for commercial purposes are not, perhaps, always appreciated.

"Present day airships, which in no way approach the limit of size, have a disposable lift of more than thirty tons, which enables them to embark on long flights without the necessity of descending for replenishment of fuel.

"There is no reason why an airship should not be fitted with engines as silent as those of a motor car. Sleeping accommodations can, in any case, be provided well away from the power plant, and there is complete absence of such noises as the singing of wires which would detract from the comfort of passengers in an airplane.

"The power plant can be readily split up into as many units as desired, and failure in the power plant does not involve immediate descent, while running repairs can easily be effected in the air.

"Even with landing grounds only ten miles apart, an airplane would be compelled to fly at a minimum height of about 3,000 feet, whereas an airship can cruise safely a few hundred feet above the ground, which considerably enhances the pleasure of the passengers by affording them an opportunity of enjoying the scenery."

Market For Canada's Flax**Great Opportunity for Exporters in
This Country**

Montreal.—If Canada has the flax, then there is a splendid market open to her in the United Kingdom. That was the opinion expressed in Montreal by Mr. John Rae, of an old-established firm in London, who has visited many Canadian centres in order to ascertain the supplies of flax available for export from the Dominion.

Before the war, Mr. Rae pointed out, Great Britain secured the bulk of her flax from Russia, Holland and Belgium. At one stroke Russia is out of the market, while the supplies from Holland and Belgium are very limited, hence the British trades have cast their eyes toward Canada in the hope of finding a source of supply here.

Mr. Rae pointed out that if Canada could compete with foreign countries, he did not see why she did not make a bid for that market and thus establish another export connection. This was the opportunity for Canada to develop this market while the other sources of supply are unable to continue under the abnormal conditions.

With proper handling and a good quantity of flax, there was a great opportunity for exporters in this country. To handle the flax from the sowing to the finished product he did not think was advisable in Canada at the present time.

Canada's Aerial Record

London.—At a dinner of the Canadian air force at Shoreham the pilots assembled there had destroyed an aggregate of 219 enemy machines. Gen. Currie announced that the air force would be maintained in Canada. He advocated the retention of identity of units that had served in France in the reorganized militia to maintain the traditions built up in the field.

The silent fisherman is the most successful. Girls should remember this when angling for husbands.

**Shock Left Her
Weak and Nervous
COULD NOT SLEEP**

When the system receives a shock of any kind, the heart becomes weakened, the nerves unstrung, the appetite poor, faint and weak feelings come over you, you can't sleep at night, and you wonder if life is worth living.

To all those who suffer from nervous shock we would recommend Milburn's Heart and Nerve Pills as the best remedy to tone up the entire system and strengthen the weakened organs.

Mrs. J. J. Bunyan, Pilot Butte, Sask., writes: "I have used Milburn's Heart and Nerve Pills after having suffered from a terrible shock to my whole system. I was so utterly weak and nervous I could not sleep at night, and my appetite was very poor. I could not walk across the floor without trembling all over."

I had hot flushes and fainting spells. When I was on the second box of your Heart and Nerve Pills I began to feel that they were doing me good, so I kept on until I had used six boxes, when I felt like a different person.

"I am never without them in the house, and highly recommend them to all who suffer with their heart."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Fate Of An Arctic Aviator**Three Intrepid Men Have Never Been
Heard From**

The recent attempt to cross the Atlantic by aeroplane recalls to mind the fact that an attempt was made to fly to the North Pole in a balloon 20 years ago, by the noted Swedish scientist and aeronaut, Salomon August Andree and his two companions, Nils Strindberg and Ferdinand Frakel.

The three intrepid men were last seen sailing over the snowy peaks of Spitz-bergen and have never been heard of since. Their fate is a mystery locked away in the vast silences of the lands of eternal snow and ice.

Andree was not only a expert balloonist, he was also a skillful scientist, and he had carefully studied the question of Polar explorations. He had observed that at certain seasons of the year a steady current of air floated toward the north.

Andree's plan was to set sail in this current, float over the pole, alight and take observations, and then wait for a favorable current to bear him home again. This, it must be remembered, was before balloons and aeroplanes had reached their present state of efficiency.

King Oscar II. of Sweden himself was a heavy subscriber to the fund which made the attempt possible, and at last, after months of waiting, the balloon was cut loose from its moorings on the 11th of July, 1899. Disaster threatened at the very outset, for the balloon dipped suddenly, and only the frantic throwing overboard of ballast enabled the vessel to rise. It was not long before it was lost to sight. It was never seen again.

Twelve months of anxiety and suspense followed, and then the Swedish government sent out three search parties. Various rumors were traced to their source, every possible clue was followed up, but without any tangible result. One circumstantial report was to the effect that the Eskimos in the Northwest had seen a "great white house" descending from the skies, and that three men, starved to death, had been found in it.

Tracing parties were sent out, but it was impossible to find the tribe, and the truth of the story was left in doubt.

Campaign On Anarchists**U.S. Government Makes Provision for
Vigorous Steps Against
Extremists**

Washington.—Provision for vigorous steps by the federal government against bomb throwers and other anarchists and radicals, declared by government officials to be plotting the overthrow of the government, and spending \$2,000,000 monthly to that end, were made in the sundry civil appropriation bill, as reported to the senate.

In reporting the bill, the senate appropriations committee increased from \$1,400,000 to \$2,000,000 the fund of the department of justice for general suppression of crime. In addition, it added \$300,000 for a special fund to enforce the law against alien anarchists through deportations.

**English Primate
And Dry America****One of the Bravest Things History
Had to Show**

London, England.—Presiding at the annual meeting of the Church of England Temperance Society at Lambeth Palace, the Archbishop of Canterbury described the drink prohibition in America as one of the most remarkable episodes in the whole history of social reform. "Our American brothers," he said, "always do things on an exceptional scale. There are never any half measures or any doubt about what they mean."

His Grace said that he had found the strongest difference of opinion amongst Americans as to what would happen during the next year. If everything went as it was supposed to go, America would be dry from ocean to ocean. How far facts would correspond with theory, and practice answer to law, they could not say, and he did not think it was wise to dogmatize as to what would be the result of prohibition. None of them, however, would be in any doubt as to the thankful recognition they would give to what was one of the bravest things history had to show—of a nation grappling with a nation's peril. In England the best general public opinion had supported the restrictive policy which had been in force even where it had been most severely applied. Where restrictions were thought likely to prove most unpopular they had proved nothing of the kind. It would be fatuous today, because war was over, in regions where restrictions had proved to be not very unpopular, to relax these restrictions, because a certain number of people had interests involved. They must be resolved to use every bit of influence they could to secure the continuance of restrictions which had been proved to work so well.

**LEMONS MAKE SKIN
WHITE, SOFT, CLEAR****Make This Beauty Lotion for a Few
Cents and See for Yourself**

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way: Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well, and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.

Hollweg Assumes Responsibility

Berlin.—Dr. Von Bethmann Hollweg, former German chancellor, has formally asked the allied and associated powers to place him on trial instead of the former emperor. The former chancellor says that he assumes responsibility for the acts of Germany during his term of office and places himself at the disposal of the allies.

WE PRINT

The Didsbury Pioneer

H. E. OSBORN, Prop.

Subscription: \$1.50 per year
U. S. Points: \$2.00 per year

WEDNESDAY, JULY 16, 1919.

The argument that a High School is a great attraction for people to settle in a town is being used. What is the use of these public institutions for this purpose if nobody has vision and capital enough to build houses to accommodate newcomers. It is a well-known fact that there are already people in town who have to live in any old way because of the lack of buildings for rent, and it is also another well-known fact that a lot of them have gone away this spring because of this condition. The first essential is to provide home accommodation and naturally the others follow.

The rain still continues to pass up Didsbury. Saturday last there was also signs that we were to get a good steady rain and the same on Sunday night but while to the north, south, east and west reports are that they got good rains, this district simply was not in it with the exception of a few drops not enough to lay the dust. Croy and feed conditions are in bad shape although if we get good rains within the next two weeks there will be plenty of green feed.

It is well known that the Didsbury Women's Institute are a progressive bunch but their activities are not confined to their own peculiar problems. Their work includes sympathy and help to those outside of their own organization, as was shown this week when they held a tag day for the purpose of raising funds to send a little three-year-old paralytic to Winnipeg for treatment. They were successful in raising \$82.30 although this will not begin to cover the expense.

The big picture "The Heart of Humanity" which was shown in the Opera House, on Monday night, was the best and most soul-stirring that has ever been shown here. The evil spirit that permeated the German army during the late terrible war was never so plainly shown and brought home to every one what that evil spirit would have done if they had gained the victory. Some of the scenes were awfully realistic and gave the impression to several people that they were actually on the battle fields as they occurred, and perhaps they were right as it is well known that the British Government had a staff specially for this purpose.

Didsbury Will Hold Veterans' Day Celebration.

For some time back there has been a feeling that Didsbury should do something in the way of a celebration to welcome our boys back home and give them at least one good day's enjoyment. There was an idea that it would be well to wait until the new Opera House was ready for opening but as it was found that it will be rather late before the house is ready the idea was not carried out.

It remained for the Didsbury Women's Institute to start the ball rolling. They held a meeting on Friday afternoon last and decided that they would go ahead and hold a celebration on Peace Day, next Saturday, but it was afterwards decided that as there was to be a celebration in Olds on that date and the time was too short to get up a good day's sport that it should be postponed and all the organizations in town invited to help the good cause along.

A meeting of a few of the representatives was held on Monday night and another fuller meeting of the Women's Institute, the U. F. A., Didsbury Town Council, and Athletic Association, three members from each, will be held on Thursday night, at the Schoolhouse to develop plans for a big day on Friday, August 1st. Remember the date and boost for a big day for the boys.

Rugby Picnic

On Friday last, July 11th, at the home of Mr. Charles Brown, a real community picnic was held on the invitation of the Rugby Women's Institute. The day was all that could be desired and nearly all the farmers of the district were there to enjoy it. At 1.30 a bounteous lunch was served and was thoroughly appreciated. During the afternoon races and other games were indulged in, after which, in the shade of the beautiful trees, the assembly was called to order and a very interesting address was delivered by Prof. W. J. Elliott, Live Stock Superintendent of the Grain Growers' Co., Calgary. Mr. Elliott dealt at some length on live stock conditions in the province, the shortage of feed and the outlook for the future, strongly advising those present not to be influenced to a panic but to hold on to their cattle as long as possible, and keep in touch with the Grain Growers' Co. who would gladly keep them posted as to prevailing conditions. He called attention to the importance of being loyal to the farmers organization as only by so doing could they expect to get what they were entitled to. At the close of the address a hearty vote of thanks to Mr. Elliott was carried enthusiastically, as also another to the ladies of the Institute for the enjoyable time spent by the assembly. Quite a number of the ladies have joined the U. F. A., and the meetings are held in the Rugby schoolhouse the second Tuesday in each month at 8 o'clock in the evening. The meeting in September will be conducted by the lady members, and all farmers, their wives and daughters are invited to attend. Come and help things along.

Late Private Leo Bahm's Effects Received.

Mr. and Mrs. A. Bahm, of Big Prairie, have received all the effects of their son, Private Leo Bahm, who was killed by a machine gun bullet at Aubercourt, France, on August 8th, 1918. He was buried at Hangard, Comunal, France.

Private Bahm was wounded twice, once in 1916, and again in 1917, although his parents only knew of one occasion. How they came to know was by photographs which have been returned to them, one of which seems to show his left arm and hand in a peculiar shape. It is supposed that this hero did not want to let his people know that he was in trouble although they knew he was in England at the time.

Amongst the deceased soldiers' effects was his pocketbook which contained photographs of himself with several letters from home. All the photographs show a large hole at the bottom through which the bullet that killed him penetrated.

The Coming Of Peace

The 28th day of June will stand for all time as one of the most memorable dates in the calendar, and as one of the most important anniversaries for future generations to celebrate, for it was on this date in the year of grace, 1919, that the Treaty of Versailles was signed, thus officially ending the Great War which began in 1914.

By a strange coincidence, it was on June 28, 1914, that the Archduke Franz Ferdinand, heir to the throne of Austria-Hungary, was murdered at Sarajevo. It was this tragedy that was assigned as the reason for Austria declaring war on Serbia, and thereby precipitating the terrible conflict which shook the world to its very foundations. The signing of the peace treaty on June 28, five years later, was not by pre-arrangement, the date having been postponed from time to time in order to complete negotiations, and finally to enable Germany to secure the consent of some of her leading men to assume the responsibility of affixing their signatures to the document.

It is not necessary at this time to recall the detailed terms of the peace treaty which Germany, after many declarations that she would never sign, finally bowed to the inevitable and signed unconditionally. Suffice it to say, that it is probably the most humiliating admission of defeat, and the acceptance of the most abject terms of punishment that any great nation in all the world's history ever signed. Yet Germany had to sign. The only alternatives were anarchy at home, and the ultimate occupation of the whole country by the armies of the allies.

It is a stern peace, but a just peace. It had to be stern in order to be just. Even so, it is undoubtedly a more merciful peace for Germany than Prussian militarism would have enforced on the allies had Germany proved victorious in the war. This fact is proven by the statements of leading German statesmen and semi-official newspapers made in the days when victory for Germany appeared to be not at all improbable.

The great work of world reconstruction has now to be undertaken. It will call for the patience, wisdom and energy of the statesmen and people of all nations in order that it may be successfully accomplished. The

problems confronting the world on a return to peace are quite as great as the problems which arose in the prosecution of the war; in fact, the peace problems are more complex and will be found even more difficult of solution. They cannot be solved in a year, or in several years, but for long years, even generations to come, the nations will find it necessary to deal with acute questions which had their origin in the Great War.

The allies will for a long time to come have to remain prepared and watchful of Germany. Germany, although defeated and accepting the terms imposed upon her, is far from repentant. There has been no regeneration in Germany. At heart the people are still arrogant and defiant, but for the time being impotent and helpless. The spirit of Germany has not changed, and although it may now style itself a republic and not an empire, there is lacking any real evidence of the sincere acceptance of democratic institutions.

Throughout the war Germany proved to be a treacherous and barbarous foe. She treated her solemn treaty obligations as "scraps of paper." On the eve of the signing of the peace treaty she gave further evidence of the fact that she has not reformed in this respect. The sinking of the surrendered German fleet at Scapa Flow was a characteristic piece of German treachery and a violation of the laws of war. By the terms of the armistice Germany was required to surrender her fleet. She accepted those terms. The fleet was interned at Scapa Flow. Then on the eve of the signing of peace the Germans scuttled the ships, destroying property which did not belong to them.

By this act the German navy added the crowning infamy to its history. Its record all through has been one of villainy. It skulked in its harbors and made war by submarine assassination; it surrendered without a fight; and after the surrender it treacherously destroyed the surrendered property. This act, without a parallel in the history of the world, imposes on the allies the necessity of keeping a close eye on Germany in the years to come to ensure that she lives up to the terms of the peace treaty she has now signed.

YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You simply say to the drug store man, "Give me a quarter of an ounce of freezone." This will cost very little but is sufficient to remove every hard or soft corn from one's feet.

A few drops of this new ether compound applied directly upon a tender, aching corn, should relieve the soreness instantly, and soon the entire corn, root and all, dries up and can be lifted out with the fingers.

This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that, while freezone is sticky, it dries in a moment, and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin.

Don't let father die of infection or lockjaw from whitening at his corns, but clip this out and make him try it.

Saskatchewan Beef for Italy

Regina, Sask.—Gordon, Ironsides & Fares have shipped 17 cars of Saskatchewan beef, valued at \$170,000, direct to Italy. Ten cars from Regina, three from Moose Jaw and four from Saskatoon.

TIRED PEOPLE ARE DEBILITATED

Full Health and Strength Can Only Be Regained By Enriching the Blood

People who are tired all the time and never feel rested, even after a long night in bed, people who cannot regain weight and strength, who feel no joy in living, are in a condition described by doctors as general debility. A medical examination might show that every organ in the body is acting normally, but the pallor of the face will usually show that the blood is weak and watery. This is the root of the trouble.

Debility is a loss of vitality, not affecting any one part of the body, but the system generally. The blood goes to every part of the body and the use of a blood tonic like Dr. Williams' Pink Pills quickly tones up the whole system. The first sign of returning health is a better appetite, an improved digestion, a quicker step and better color in the cheeks. The rich, red blood, reaching every organ and muscle, carries new health and vigor. The nerves are quieted, sleep becomes more refreshing, and with persistent treatment and a good diet the patient is once more enabled to enjoy life. The case of Mr. W. Doxtater, R. R. No. 4, Tilsonburg, Ont., illustrates the great value of Dr. Williams' Pink Pills in cases of this kind. Mr. Doxtater says: "I was troubled with pains throughout my whole body, was extremely nervous, did not sleep at night, and was further afflicted with rheumatism. In spite of different treatment this condition persisted, indeed I was growing worse, and had fallen away in weight to 130 pounds and was scarcely able to do any work. Then I began taking Dr. Williams' Pink Pills, and after a few weeks there was a noticeable improvement in my condition. I continued taking the pills, constantly gaining until I felt as well as ever I did. While taking the pills my weight increased to 170 pounds, and I can now do as good a day's work as anyone. My advice if you are not feeling well is to take Dr. Williams' Pink Pills and they will soon put you right."

At the first sign that the blood is out of order take Dr. Williams' Pink Pills, and note the speedy improvement they make in the appetite, health and spirits. You can get these pills through any medicine dealer or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Twenty-three thousand screws are used in the making of an ordinary airplane, and seven hundred pieces of wood in a single wing.

Minard's Liniment Cures Diphtheria.

Plans Trains Of Air Cars

The First Step Toward the Creation of an Aerial Train

The keenest interest has been aroused in various circles in London by a report from the Hague that Herr Fokker, the Dutch inventor of the German battleplane, and proprietor of the works that manufactured it, proposes having himself seated in one airplane and towed by another plane. This is the first step toward the creation of an aerial train, the idea being an aerial locomotive with a chain of cars, similar to a modern railway train.

Herr Fokker has a specially constructed monoplane without motor ready for the experiment, but has great difficulty in getting an airman to lead the airplane. A flying train of air cars, some for baggage and some for passengers, is said to be the dream of this Dutch inventor.

Like a Grip at the Throat.—For a disease that is not classed as fatal there is probably none which causes more terrible suffering than asthma. Sleep is impossible, the sufferer becomes exhausted, and finally, though the attack passes, is left in unceasing dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful curative agent. It immediately relieves the restricted air passages, as thousands can testify. It is sold by dealers everywhere.

At twenty-one a man knows everything; at fifty he wishes he knew something.

Minard's Liniment Cures Colds, Etc.

Price Limit for Wives

Marriage agencies in Japan are now limited to twenty-five pesas fee on each match made. One peso for an introduction, five for a hunt for a life partner, and twenty-five more for actually binding two together are the legal prices. This arrangement cuts out all the sorbets, carriages, flowers, jewelry and other expenses of this country, and after all is more economical.

Chinese Firecrackers

Canton District Is the Centre of This Industry

China invented gunpowder and popularized fire-crackers. The cheapest kind of firecrackers is made of gunpowder rolled up in coarse bamboo paper with a covering of red paper, red being regarded by the Chinese as bringing good luck. Alum is used to neutralise the smoke. The Canton district is the centre of this industry. The Chinese seem to use firecrackers upon every occasion—to send a parting guest, in wedding celebrations, or festivals and birthdays, and to dispel evil and bring good omens. China exports about £600,000 worth a year.

Genuine Aspirin Has "Bayer Cross"

Tablets Without "Bayer Cross" Not Aspirin At All

Get Genuine "Bayer Tablets of Aspirin" in a "Bayer Package," Plainly Marked With the Safety "Bayer Cross"

There is not a penny of German money invested in "Bayer Tablets of Aspirin," nor will a German citizen profit by its sale or ever be allowed to acquire interest.

The original, world-famous Aspirin, marked with the "Bayer Cross," is now made in Canada and can be had at your druggist's in handy tin boxes of 12 tablets and larger "Bayer" packages.

Genuine Aspirin has been proved safe by millions for Pain, Headache, Toothache, Earache, Rheumatism, Lumbago, Colds, Grippe, Neuritis.

Aspirin is the trade mark, registered in Canada, of Bayer Manufacture of Monoaceticacidester of Salicylic acid.

Help for Farmers

Regina, Sask.—According to the announcement of A. E. Wilson, seed grain commissioner of the Dominion government with headquarters here, the sum of \$5,000,000 was expended for the relief of farmers who experienced a shortage of crop with consequent lack of seed grain, in the three prairie provinces of Manitoba, Saskatchewan and Alberta. Nearly 4,000,000 bushels of seed grain were distributed between last fall and this spring.

Do You Know the 9 Points?

One talks about the "nine points of the law," one hears the expression, but not everyone can enumerate them. For future reference then, the following are the nine requisites for success in a suit-at-law:

1. A good deal of money.
2. A good deal of patience.
3. A good cause.
4. A good lawyer.
5. A good counsel.
6. Good witnesses.
7. A good jury.
8. A good judge.
9. Good luck.

State of Ohio, City of Toledo, Lucas County—ss.
Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for any case of Catarrh that cannot be cured by the use of HALL'S CATARRH MEDICINE.

Japan Sends More Troops to Russia

Tokio.—Japan is sending reinforcements, consisting of a brigade of infantry and a company each of cavalry and engineers, to Vladivostok, because of conditions existing in the maritime province of Siberia, it is officially announced. The Bolsheviks recently have been active in this region, and the announcement says, "have often attacked Japanese contingents, causing casualties."

SAVE THE CHILDREN

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally to the well child will prevent their coming on. The Tablets are guaranteed by government analysts to be absolutely harmless even to the new-born babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Girls are delicate vessels, which require a small fortune every season to keep them in sails.

ON THE MARRIAGE DAY

Romance ceases and history begins—and corns begin to go, too, when "Putnam's" is applied—it takes out roots, branch and stem. Nothing so sure and painless as Putnam's Corn and Wart Extractor; try "Putnam's," 25c at all dealers.

Where Babies Are Salted

The strange custom of salting newborn babies is still practiced in certain regions of Europe and Asia. The method varies with the differing nationalities of the peoples employing it. The Armenians of Russia cover the entire skin of the infant with very fine salt. This is left on the baby for three hours or more, when it is washed off with warm water.

A mountain tribe of Asia Minor are even more peculiar in this regard than the Armenians, for they are alleged to keep their new-born babies covered with salt for a period of 24 hours. The modern Greeks also sprinkle their babies with salt. The mothers imagine that this practice brings health and strength to their offspring, and serves to keep away the evil spirits as well.

A man always tries to follow the straight and narrow path when it comes to shovelling snow.

International Air Race Announced

Toronto.—An international aerial race, which will start simultaneously from Toronto and New York, will be held on August 25 with the Prince of Wales as the starter, it has been announced here. Stops will be made at Buffalo, Syracuse and Albany.

A prize of \$5,000 and a trophy have been offered by John M. Bowman, of New York. It is expected there will be more than two score entries.

The Foe of Indigestion.—Indigestion is a common ailment and few are free from it. It is a most distressing complaint and often the suffering attending it is most severe. The very best remedy is Parinelee's Vegetable Pills taken according to directions. They rectify the irregular action of the stomach and restore healthy action. For many years, they have been a standard remedy for dyspepsia and indigestion, and are highly esteemed for their qualities.

The professor of elocution was instructing the young man in the art of public speaking.

"When you have finished your lecture," he said, "you must bow gracefully and leave the platform on tip-toe."

"Why on tip-toe?" queried the youth.

"So as not to wake the audience," replied the professor.

Minard's Liniment Cures Distemper.

It is said that contentment is better than riches—but most people are willing to take chances with the riches.

A proverb is an undisputed fact with whiskers on it.

The Oil for the Athlete.—In rubbing down, the athlete can find nothing finer than Dr. Thomas' Electric Oil. It renders the muscles and sinews pliable, takes the soreness out of them and strengthens them for strains that may be put upon them. It stands pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a lubricant.

Hung Hats on Kitchener's Peg

"Hang your hat on Kitchener's peg," was the word that went down the line when a group of United States fighting men passed through the peer's lobby in the House of Lords, London. And every American took off his hat and hung it for a second on the peg that bore the name of Lord Kitchener. It was a breach of regulations, but a showing of regard for the dead field marshal that the British appreciated.

Minard's Liniment Cures Garget in Cows.

Ship Centenaries

The ship of today, even without any submarine risks, cannot hope to attain the ripe old age of its forerunners. Nelson's Victory was over 40 years old when she took part in the battle of Trafalgar, and the Betsy Cairns, which, according to tradition, brought over William and Mary in 1688, survived until 1824, when she was wrecked at the mouth of the Tyne.

Lloyd's Register for 1910 contained the Olivia, built in 1819, and, writing in 1833, Admiral Martin recorded that the small vessel in which James II. escaped from Rochester was still in use conveying goods from one dockyard to another.

What the very young man doesn't know he thinks he knows, and it answers the same purpose.

A word to the wise is sufficient—if you call him a liar.

A Wonderful Discovery Cures Catarrh Permanently

Formerly doctors prescribed stomach treatment for Catarrh and Bronchitis. They seldom cured and Catarrh has become a national disease. Today the advanced physician fights Catarrh by medicated air. He fills the lungs, nose and throat with the antiseptic vapor of Catarrhazone. It is easy then for Catarrhazone to cure. It contains the essences of pure pine balsams, reaches all the germs and destroys the disease. Every case of Catarrh, Bronchitis and Sore Throat can be cured by Catarrhazone. The dollar outfit lasts two months and is guaranteed to cure; small size 50c; trial size 25c, all dealers or Catarrhazone Co., Kingston, Ont.

SAVE ON YOUR SHOE BILL

Make every pair of shoes you buy give the longest possible wear. Use on them the very best polish.

GOLD LEAF SHOE DRESSING

contains oil to soften and preserve the leather. Gold Leaf is economical—a little on the dauber produces a black, long-lasting shine. No rubbing required.

Remember the big red package.

Spring Fever—What Is It?

THREE o'clock in the afternoon—and absolutely no "pep." You call it spring fever, but is it?

When you are constipated waste matter remains in the intestines, decays, forms poisons which are absorbed into your blood and carried by it to every cell in your body. When your cells are thus poisoned, of course you have no "pep."

Pills, salts, mineral waters, castor oil, etc., merely force the bowels to act, and make constipation and self-poisoning a habit. Nujol is entirely different from drugs as it does not force or irritate the bowels.

Nujol prevents stagnation by softening the food waste and encouraging the intestinal muscles to act naturally, thus removing the cause of constipation and self-poisoning. It is absolutely harmless and pleasant to take.

Nujol helps Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle of Nujol from your druggist today and watch your "pep" come back.

Warning: Nujol is sold in sealed bottles bearing the Nujol Trade Mark. All druggists. Insist on Nujol. You may suffer from substitutes.

Alfalfa Supreme By Chemical Test

Found to Be Much the Highest in Fat

In a report issued from the chemistry department of the Manitoba Agricultural College, corn, Sudan grass, millet, alfalfa, cereals, rape, and buckwheat are compared as to their feeding values. The analysis turns out very favorably to alfalfa, which in its natural state is found to be about double its closest competitor among the cereals in protein, 50 per cent. higher than Sudan grass in carbohydrates, and much the highest in fat. On account of the stems the ash content is fairly high, however. Sudan grass is medium high in protein, very high in heat-forming elements (it should be especially valuable here in winter feeding), and contains nearly 1 1/2 per cent. of fat. Cereals and peas, and corn stand about third in the list in feeding value. The high succulence of corn is of especial value in feeding dairy animals.

"Black Watch"—The Best Black Plug Chewing Tobacco on the Market

Kaiser May Submit To An Enquiry

The Hague. — The former Kaiser's attitude toward the allied demand that he be held responsible for the war is dependent on the lengths to which the allies intend to carry their examination, it was reported. It was unofficially said that Wilhelm would not object to giving himself up to an allied tribunal if it merely passed judgment on the role he played in starting the war, in violating neutrality and in nonobservance of international law.

The Tax Recovery Act

The various Municipal Acts in force in the Province provide for forfeiture proceedings being taken against land on which taxes are in arrears. By these proceedings the title to the land is forfeited to the Municipality, subject to redemption within a year, and if the land is not redeemed then it may be sold by the Municipality. This method of Tax Enforcement has proved to be both expensive and tedious, as it requires the making out of a Tax Enforcement Return. Abstracts of Title are required to be secured from the Land Titles Office for all lands on the said Tax Enforcement Return; notices have to be sent by registered mail at least 60 days prior to date of the Court at which the Tax Enforcement Return is to be confirmed to all parties having any interest in the land and Notice of Court has to be advertised in the local newspaper and in the Alberta Gazette. After the Tax Enforcement Return has been confirmed additional Abstracts have to be obtained, two more sets of notices have to be issued and advertisements again inserted in local newspapers and Alberta Gazette, giving date of final forfeiture. If the land is finally sold it is at least fourteen months from the date of commencement of forfeiture proceedings before the Municipality realizes all its taxes, and if, as frequently happens, in Urban Municipalities, the land cannot be sold at all, the Municipality does not receive its taxes and in addition is out a large amount spent in obtaining Abstracts, printing and mailing special notice, advertising date of Court, advertising date of final forfeiture and so on.

Because these proceedings were so expensive, burdensome and unsatisfactory, the Hon. A. G. MacKay, Minister of Municipal Affairs, at the last session of the Legislature, introduced legislation under the name of the Tax Recovery Act, which will greatly simplify and reduce the expense of the Tax Enforcement proceedings in future.

Under the Tax Recovery Act, lands on which taxes are in arrears on the first day of July of the year following that in which they are levied, are liable to be sold for taxes and the Treasurer, Assessor or Collector, as the case may be, of each city, town, village, or municipal district, shall, on or before the fourteenth day of August, in each year, submit to the Mayor or Reeve of the Municipality, a list of all lands that are liable to be sold for taxes. The Mayor or Reeve, on satisfying himself that the list is correct, gives the proper official a warrant authorizing him to advertise for sale all the lands included in such list. Such sale is required to be advertised once a week for two consecutive weeks in a newspaper or newspapers published in the Municipality, or if there is no newspaper published therein, in a newspaper circulating in the Municipality. Such advertisement must be published not less than six weeks before the date of sale and is required to contain a list of the lands to be sold. In addition to the publication of the list as above mentioned, there

shall be published once during each week after the period of two weeks above mentioned, but prior to date of sale, a notice of such sale and a statement as to where the list of lands may be seen. Notice of the sale is also required to be published in two issues of the Alberta Gazette, the last issue to appear not less than two weeks before the date of sale. No lands, the title to which is vested in the Crown, can be included in such sale.

Lands so offered for sale shall be sold to the highest bidder, and if they cannot be sold for the full amount of the arrears and taxes and costs, they may be sold for a lesser sum, subject however, to a minimum value, that may be placed upon them by the Council of the Municipality. This minimum value shall not be advertised, but shall be treated by the Treasurer as the upset selling price. Any lands which are not sold at such a sale shall be included in the list of lands offered for sale the following year. The purchaser at the Tax Sale will only be required to pay at date of sale, the amount due the Municipality for arrears of taxes and costs even if the land is sold for more than the arrears of taxes and costs.

As soon as the sale is completed, a return showing the lands sold will be sent to the Registrar of the Land Titles Office for the Registration District in which the land is situated, who shall register against such land a Memorandum of Sale, so that any prospective purchaser or money lender may be protected.

All lands sold at a tax sale are subject to redemption within a period of one year from the date of sale. Where lands sold are not redeemed by the end of the year all parties shown by the record of the Land Titles Office to be interested in any way in the land, will forthwith be notified of that fact by registered mail, and after a period of sixty days has elapsed from the expiration of the redemption period a Return of the Unredeemed Lands will be submitted to a Judge of the District Court, who, on being satisfied that due notice has been given and that all matters in connection with the proceedings are regular, shall make such order as to transfer as he deems advisable and in accordance with this order the Treasurer shall then issue transfer to any tax sale purchaser, on receiving from him payment of the balance outstanding, and such transfer shall entitle the Purchaser to an indefeasible title, except as to claims of the Municipality or the Crown. Any monies paid to the Municipality over and above the taxes due, shall be paid to the persons declared by an order of a Judge of the District Court to be entitled thereto.

By comparing the procedure under the Tax Recovery Act with the provisions in regard to Tax Enforcement that have hitherto been in force, it will be noted that under the Tax Recovery Act, it is only necessary for the Municipality to obtain Abstracts of Title and to send notice by registered mail, in connection with the lands which are sold and not redeemed, whereas under the forfeiture proceedings that have been in force under our Municipal Acts, it is necessary to obtain Abstracts of Title of all lands

in which taxes are in arrears, to send notice by registered mail to all parties shown to be interested, then during the year allowed for redemption after the land has been forfeited, it is necessary for another set of Abstracts to be secured and two more notices to be sent to each person shown to be interested in the land, and after all this trouble and expense the Municipality in many cases is unable to collect any taxes whatever. The Tax Recovery Act provides for the immediate sale of land for taxes, without waiting for a year as required by the forfeiture proceedings. If the land can be sold at all, this brings in the taxes immediately. If it cannot be sold, very little expense has been incurred. In addition to making provision whereby Municipalities may obtain their taxes more quickly, the Tax Recovery Act provides a simple method whereby action may be taken at an expense that will not be more than one-third of what it was under the forfeiture proceedings set forth in different Municipal Acts, and if the land is worth the taxes the Municipality gets results quickly, while if the land will not sell, the Municipality has not been put to any great expense.

The provisions of the Tax Recovery Act will come into force in the year 1920, and on and after the year 1920 the Tax Enforcement Proceedings provided for in the Municipal Acts will cease to be operative except insofar as proceedings instituted prior to the end of the current year are concerned.

W. G. LIESEMER

Does a Farmer Need a Truck?

THE farmer with a Ford Truck practically lives next door to the market.

He has a choice of markets. He becomes more independent.

He can market his goods when and where he pleases.

He sells his crop to the very best advantage.

And his hauling costs him less—in labor and money.

It is not only cheaper to haul with a Ford Truck than with a team and wagon, it is quicker, it is easier work.

Consider the time and labor the farmer can save with a Ford Truck. With a team the trip to town takes the better part of a day.

A Ford Truck makes the same trip in two or three hours.

When labor is so scarce, what farmer can afford to waste day after day of his valuable time?

Ford Trucks Complete with Body and Enclosed Cab

Ford One-Ton Trucks are now supplied, if desired, with standard truck bodies in two types, the Stake Body and the Express Body.

In both standard bodies the cabs may be supplied with or without doors as desired.

See these complete Ford Trucks. Consider the matter from every angle; the cost of feeding horses against the cost of running a Ford Truck; the time you lose on the road; the money you lose by being so far from the best markets. There is only one conclusion you can come to. You will have a Ford Truck.

Price (Chassis only)
\$750 f.o.b. Ford, Ont.

J. W. PHILLIPSON, Auctioneer

HUGH GILMORE, Prop.

Postal Workers Have Failed To Attain Object

Ottawa.—The government has decided that it cannot recede from the policy it has so far pursued in the matter of locked-out postal workers in Winnipeg. A delegation of members of the Amalgamated Postal Workers took a train back to the West, having failed in an attempt to persuade the government to reconsider its policy of making permanent appointments of postal employees who acted as strike breakers when the regular postal employees came out in a sympathetic strike on May 15.

The delegation was composed of C. Silvertz, president of the Amalgamated Postal Workers, Victoria; L. Pick-up, Winnipeg; J. V. Johnston, Winnipeg, and A. Venables, Calgary.

"We came at the request of the strikers," said Mr. Silvertz, "with a view to securing a modification of the position the government has taken on this question. We could not ask for less than reinstatement for the employees locked out."

"In an interview with Sir Robert Borden, the premier said the question resolved itself into three points:

"1. Reinstatement as requested.
"2. To modify its attitude and reinstate some of the men; or,
"3. Adhere rigidly to the terms of the ultimatum issued by Hon. Mr. Meighen."

"We went, before the cabinet for its reply, and it does not see its way clear to recede from the position it has already taken. We have failed in our object."

Belgium Ratifies Peace Treaty

Patriotic Demonstration in Parliament in Course of Proceedings

Brussels.—The Belgian foreign minister introduced bills in the chamber ratifying the treaty with Germany and the agreements connected with the treaty. The president of the chamber read a letter from King Albert congratulating the chamber and the country on the victory achieved after the horrors of war and exhorting the country to be united in the efforts necessary to the work of restoration and reorganization. The reading of the letter was greeted with a great patriotic demonstration.

The senate passed bills providing for due expression of the nation's homage to those killed in battle or executed during the war.

No Abatement in Forest Fires

Halifax, Ont.—Two more settlers in the bush country west of the town are reported to have lost their farm buildings in the Sharp Lake fire, which is still raging. The victims are named Olsen and Fernholm. Other properties are in grave danger as the flames are spreading before a rising wind.

Some slight showers of rain are reported to have fallen in different parts of the country, but the effect on the fires have been negligible. At Fredrick House the plant of the Beaver Board company is menaced, but is still standing.

Winnipeg Strike Solved Nothing

Winnipeg.—The Western Labor News says:

"After nearly nine weeks of strike and strife the metal shop workers went back to work. That is, the strike is off, though some men are not reinstated and some others refuse to go back on the conditions offered."

"The big three employers are still opposed to collective bargaining, as understood by trades unions. They refuse to deal with the business agents of the unions. Some of the smaller firms do recognize the unions in the true sense."

Saskatoon.—At the Empire theatre in Saskatoon and the Regina theatre, Regina, for the fair weeks there will be offered three times each day one of the famous Pantages vaudeville shows. These will comprise some 20 or 30 of the premiere vaudeville artists of the day, offering, in conjunction with movies, a two-hour show that should be a welcome added attraction to the already strong fair attractions.

Food Riots In Italy

Protests at Price of Food of Serious Nature

Forli, Italy.—After a great meeting here, in which a vast crowd protested against the high cost of living, the people, excited by inflammatory speeches, attacked, sacked and destroyed many shops which refused to sell commodities at lower prices. Soon the fury of the mob made no distinction and had no limits. All the principal shops were plundered and the mobs controlled the entire city. They took possession of lorries and transported all kinds of goods and food supplies from the pillaged shops to the chamber of labor.

On the walls of the chamber they wrote: "These goods are at the disposal of the people."

The situation grew worse during the day, assuming a revolutionary character, and the mob continued to loot and destroy all kinds of property. The food riots here, however, differ fundamentally from those at Spezia early in June. At Spezia the rioters looted for their own advantage, while at Forli most of the wheat taken from the shops was transferred to the care of the municipality or the chamber of labor to be distributed to the people or sold at low prices.

The value of the goods stored by the municipality was estimated at 8,000,000 lire. The owners of those shops which escaped sacking brought their keys to the municipality, which is composed of socialists and republicans, and they ordered that the shops be reopened and the goods sold for half price under the supervision of representatives of the demonstrating masses.

Despite this apparent return to order in the riotous moment, the losses are enormous owing to the destruction of shop fittings and commodities which could not be easily transported, such as gasoline, which was burned in great quantities.

Polish Claims To Successes

Ukrainian Front Pierced and Bolshevik Forces Repulsed Everywhere

Paris.—The Polish forces have started a counter-offensive along the whole Galician-Volhynian front, according to advices from Warsaw. The Poles claim that they have everywhere broken through the Ukrainian forces, and that the Lemberg-Halicz-Stanislaus railway line is again in Polish hands. The enemy suffered severe casualties, 3,000 prisoners, 30 machine guns and huge stores being captured.

It seems that the Ukrainians were everywhere taken by surprise and gave way at all points. The Poles occupied Brody, Pluchow, Pomorzany and Brzezany, taking 1,000 additional prisoners and much booty. The Lemberg message says that the Poles have pierced the Ukrainian front at several points. Crowds of Ukrainian prisoners are arriving at Lemberg and the population of the evacuated regions are returning. Bolshevik forces began an attack on the Polish front, but were everywhere repulsed.

Cossacks Break Through

Ekaternodar.—The Don Cossacks have occupied Millerovo and broken the Bolshevik front north of Millerovo. In their successful advance the Kuban Cossacks put to route four infantry and two cavalry regiments of the Bolshevik forces. West of Ekaternodar, the Bolsheviks have been defeated on the Kertch peninsula on the eastern end of the Crimea.

Toronto Strike Figures

Toronto.—There are now 11,000 workers on strike in Toronto, according to figures furnished by the various trades affected. They are: Metal trades, 7,000; street railwaymen, 2,200; garment workers, 1,800.

Getting Rid of a Few

Charleston, S.C.—A trainload of Germans, formerly interned at Fort Oglethorpe, embarked on the transport Princess Matoika for Rotterdam to be repatriated.

Reign Of Terror In Russia

Women and Children Are Slain By the Bolshevik

New York.—A graphic story of a reign of terror in Bolshevik Russia is recited by John A. Embury, United States consul at Omsk, the seat of the Kolchak government, who has arrived here on a leave of absence. Mr. Embury declared no language could adequately picture the scenes of murder, violation of women, arson and theft which he had seen personally or had described to him by credible eye-witnesses.

Mr. Embury backed his story, particularly that of the ravage of the city of Ufa, by photographs, many of which he declared he had taken himself, and which record appalling instances of wholesale butchery of women and children.

Mr. Embury said he had visited Ufa immediately after the Bolshevik withdrawal before Kolchak's forces. He learned from survivors of Bolshevik occupation, he said, that the Bolshevik soldiers had looted the entire city and then organized a "government" consisting of committees. One of these committees, he said, was called the extraordinary committee on executions.

This committee, he declared, had all members of the city government rounded up, and ordered virtually all of them shot. The head of the committee, he said, had personally executed the president of the council, who was brought before him on a stretcher.

A few days after his arrival in Ufa, Mr. Embury said he followed a crowd of residents into a nearby wood, where they came upon scores of bodies of women and children, disclosed by the melting snow, who had been driven into the woods and brutally slain. He exhibited a photograph showing twenty of these victims, the bodies of many mangled almost past recognition. About 200 bodies were found in the woods, he said. Pupils at the Ufa high school, he said, had been lined up and questioned as to their sympathies, and all who did not profess sympathy for the Bolsheviks were shot or put to work of the most degrading character.

At Ossa, a city of about 30,000, Mr. Embury declared 2,000 bodies were found on the outskirts when the snow melted. He displayed photographs of some of these victims taken by Col. Tensler of the American Red Cross.

Pensions Bill Is Up For Discussion

New Measure Considered Satisfactory By Major Williams, M.P.

Vancouver.—"A new pensions' bill will be brought in parliament this session. It will not please everyone. It does not meet entirely with my approval, but I want to tell you that it undoubtedly meets the most general provisions of any pensions' bill in the world," said Major George B. Andrews, M.P. for Centre Winnipeg, speaking as a delegate at the G.W. V.A. convention.

The statement made by Major Andrews followed the presentation by the resolutions committee of a long resolution comprising no fewer than 17 sections, in which the desires of the veterans as set out in a large number of resolutions from various branches had been incorporated, and which it was hoped that the Dominion convention would endorse.

Builders Are Back

Winnipeg.—Members of thirteen building trades unions, who have been on strike for the past nine weeks, have returned to work.

With the reopening of work contractors began to rush plans for construction that was in prospect this spring, and whose abandonment has not been forced by the shortness of the remaining building season.

Lord Raleigh Dead

London.—Baron Raleigh (John William Strutt) has passed away. He was known as the "peer shopkeeper," having established a chain of milk shops in London which were supplied from his own farm. He was born in 1842.

W. N. U. 1271

Council Of Five Directs Conference

Peace River Coal Leases Cancelled

Smoky River Leases Were Subject of Investigation By Senate Committee

Ottawa.—As a result of the investigation by the select committee of the senate appointed several days ago to enquire into the question of certain valuable coal leases in the Smoky River district of the Alberta Peace river, some 200 miles north of Edmonton, leases have been cancelled by orders of Hon. Arthur Meighen, minister of the interior. As a consequence the application for the right to build a railway to be known as the Athabasca, Grande Prairie and Vermilion railway will go no further than its present stage.

Officials of the geological survey branch have testified before the senate committee that the coal area in question is probably the richest in Canada, and that if developed and connected with the main lines to the south it would be able to supply the whole of the west with a coal almost equal in quality to the Pennsylvania anthracite.

Hoover Resigns As Food Controller

Will Remain as Director of Newly-Organized Grain Corporation

New York.—The resignation of Herbert Hoover as chairman of the board of directors of the food administration grain corporation and reorganization of the corporation under the name "United States Grain Corporation" was announced at the annual meeting of stockholders here.

Hoover's place as chairman will be filled by Julius Barnes, wheat director, who also is president of the corporation. It was said Mr. Hoover would continue as a director, but that his resignation of the chairmanship marked the first step toward his retirement from public life.

Help In Time Of Trouble

Britain and States to Act in Concert in Aiding France

Paris.—The Franco-British and Franco-American treaty, the Journal says, provide that the intervention of Great Britain and the United States on behalf of France against Germany shall be inter-dependent. Great Britain and the United States, it is advised, will only help France by combined action and not separately. The paper declares that their intervention must occur if the disarmament of the Rhine territory is not sufficient to protect France from German aggression.

A Huge Contract

Reconstruction Is Started By a Big Outlay in France

Paris.—A vast reconstruction program for the whole of France at an estimated cost of 40,000,000,000 francs was announced in the chamber of deputies by M. Bedouce, budget reporter, during the debate on public works. The plan includes reconstruction of railroads, some of which will be electrified, and large projects for building canals and improving harbors.

New York.—A contract for rebuilding of the war ravaged Nancy district of France has been awarded to the Vulcan Steel Products company of New York, at an estimated figure of \$250,000,000, it is learned in financial circles here.

Revolt Stalks in Berlin

Berlin.—The communistic heaven has again arrived at the fermenting stage in Greater Berlin, and there were indications that the strike movement may develop into a political insurrection. The candor and boldness with which the independent Socialists and their Communist henchmen are playing their cards shows they feel more sure of their footing than during the March revolt.

Paris.—Premier Clemenceau, Foreign Minister Balfour, Secretary of State Lansing, Foreign Minister Pichon, Baron Makino and Viscount Chinda of Japan, and Foreign Minister Tittoni of Italy, decided to constitute a new council of five. This council of five will have as its members Foreign Minister Balfour, Secretary Lansing, M. Pichon, Foreign Minister Tittoni and Baron Makino, head of the Japanese delegation. The council will temporarily assume direction of peace conference affairs. A council of ten will not be constituted at the present.

Foreign Minister Tittoni made it clear at the meeting that Italy desires that all territory taken from Austria be definitely disposed of in the Austrian treaty. This immediately projects into the foreground the Fiume question, which it had been hoped could be avoided.

While the council received the admission from Signor Tittoni that the new Italian delegates will be more considerate than the old, it was a distinct disappointment when Tittoni expressed Italy's desire to have all the territory taken from Austria definitely allotted in the Austrian treaty, as this foreshadows a lengthy discussion.

The council decided to appoint immediately a committee to execute the Austrian treaty, also a committee for the execution of reparations, and still a third to outline the Bulgarian frontier.

The council will hear the remaining delegates and M. Maklakhoff, the Russian ambassador at Paris, on the Rumanian boundary, and especially the disposition of Bessarabia, a large part of which Rumania claims, and is at present administering, much against the Russian commission in Paris. The Russians insist that Rumania seized this territory under the guise of a specially created local government, which immediately ceased to exist after the Rumanians gained control.

The agreements between France and the United States, and France and Great Britain, for the defence of France against attack by Germany, it is understood, will not become valid as far as Great Britain is concerned until the Franco-United States convention is ratified by the United States senate.

Belgium has named its two members of the commission which will revise the treaty of 1839, and the peace conference has requested Holland to name its members so that a meeting can be held soon in Paris.

"Black Watch"—The Best Black Plug Chewing Tobacco on the Market

Seats May Be Reserved By Mail

Regina.—Seats may be reserved for parties by mail at the Pantages theatres in both Saskatoon and Regina for the big fair week attraction. The program has been specially selected to suit the times, and will be found to comprise some of the very best vaudevillians of the day. It is suggested that you drop a line to the manager of either of these theatres stating your wishes, and you can rely on prompt and courteous attention.

Open to Returned Soldiers

Winnipeg.—According to S. Larkin, of the Winnipeg Land Settlement board, the Dominion government is preparing to open for soldier settlement the Riding Mountain and Turtle Mountain forest reserves, in Northwest Manitoba.

Senate Refused to Change Vote

Ottawa.—The senate has voted down the motion of Sir James Loughheed, government leader, that they do not insist on their amendment on the prohibition bill, by a majority of seven, the vote standing 30 to 23.

Manslaughter Coroner's Verdict

London.—A verdict of manslaughter was returned by the coroner's jury at Epsom against the six soldiers already committed for trial in connection with the killing of a police sergeant during a riot, and Camp Bugler Robert Todd.

Cry tomorrow, if you must, but laugh today.

Building a Home is a Serious Yet Pleasant Business

It is serious because most people build but one real home in a life time, and it must therefore be planned with care so that it will be a real home for many years.

It is pleasant business if you have the right kind of help in planning it so that all details may be handled accurately and economically.

And it's that kind of help we are prepared to give you. Our home building suggestion books contain many ideas that will no doubt appeal to you.

They show everything from a humble cottage to the high priced mansion and includes a wide choice of modern bungalows.

CALL AND SEE THEM

They are for your use and that without charge.

The longer you delay building your new home, the more you are likely to pay for it.

North End Lumber Yard

DIDSBURY

"WE SELL BUILDINGS"

PAUL KIMBALL, VICE-PRESIDENT AND MANAGER.

AROUND THE TOWN

Mr. and Mrs. Alex Guy were visitors at the Edmonton Fair last week.

Mrs. Elton Christner left on Tuesday for Regina, where she will visit her sister, Mrs. J. J. Wilson, for the summer.

Mr. and Mrs. W. S. Durrer and Mr. and Mrs. A. Brusso motored to Gull Lake for the week end.

Mr. and Mrs. Shackleford and daughter attended the fair at Edmonton last week.

Mr. and Mrs. Geo. Madden, of the Rosebud Hotel, were guests at Gull Lake, on Sunday, motoring up from Didsbury on Saturday.

Miss Bessie Moyle, who has been studying at Regina for some months, returned home on Wednesday last for a holiday.

Mrs. J. Burce, Miss Gladys, and son Paul, of Shannavon Park, are visiting her parents, Mr. and Mrs. Wm. Wrigglesworth.

Mr. C. L. Peterson, government meteorological reporter for the district, reports the temperature on Tuesday as being 94 degrees in the shade and 114 to 118 degrees in the sun.

Mr. J. Huget, head of A. G. Studer's staff, left for a few week's vacation on Tuesday. During his holidays he will visit at Portland, Ore., Vancouver, and other coast cities.

Pte. L. B. McNaughton, who enlisted with the 187th Battalion, was wounded at Amiens, and since May has been at Ogden Convalescent Home, is now on leave and visiting his parents.

Bert Stitt has returned to his old job at the C.P.R. depot after serving in the Canadian forces overseas. His many friends will give him a hearty welcome and wish him every success on his return to civilian life.

Pte. Woods, who has recently returned from overseas, came back from spending a holiday at Toronto and Hamilton on Saturday. Pete has accepted a position at Castor for which town he left on Monday.

Mr. J. Sexsmith, of Carmen, Man., was visiting with his brother, Mr. G. B. Sexsmith, for a few days last week. Mr. Sexsmith who has been in Manitoba a good many years states that his crops were never better and that he will have a big yield. In fact he says that Manitoba as a whole is in splendid condition.

The barn dance to be given by Mr. and Mrs. Lee Sanderman on Friday night next has been postponed on account of the death of Mrs. Sanderman's father, Mr. Wm. Simons of Salem, Ore. Mr. and Mrs. Sanderman left on Monday night to attend the funeral at Salem, Ore.

The Salvation Army band will start on an automobile tour from Calgary this week and stop at different towns on the C. & E. to give short concerts. They are due at Didsbury on Saturday at noon and will give a short concert in the park on Railway ave. The monetary guarantee has been subscribed by business men of the town.

The circus that appeared in Didsbury on Monday drew quite a crowd to town but the kiddies were quite disappointed because there were no elephants nor anything else much in the animal line. The show in the big tent is reported as not being too bad.

Mr. and Mrs. Alf Weber were visitors at Edmonton for a few days last week after Mr. Weber's return from overseas. Mr. Weber has again taken up his position on the Union Bank staff, where many of the old patrons of the bank will be glad to see him again.

Mr. and Mrs. S. Wood returned from their visit to Banff on Thursday last. Sam, who has been ill for some time, was taken to Banff to see if the change would do him good but while there is a slight change for the better he is still in a very poor condition. It is to be hoped that he will still continue to improve in health and get out and help us to again make life interesting.

Armstrong and Co's sale, east of town, last week was a great success, everything was sold and brought good prices. Cattle ranged from \$65 to \$100 per head. Horses brought fairly good prices considering the market, the outstanding sale was a yearling colt which brought in \$67. The whole sale netted the owners about \$7,000. The owners congratulated Jim Phillipson on the success of the sale and appreciated the support of the public.

Arrangements are now completed for the Westcott Sports which will be held on the Jacobson farm, one mile west and one and a half miles south of Westcott on July 23rd. A fine program of races has been arranged comprising green trot, ladies' quick hitch, free-for-all running race, ladies' half-mile race, pony, relay, and barrel races, pulling stakes and other novelty races. A bucking contest will also be held. A full list of running, jumping and novelty races for men, women and children will be given. The admission will be 25c for all over the age of 12 years. Booths will be on the grounds to supply ice cream, lemonade, etc. A dance will be held at night in J. B. Worthington's barn. Everybody come. 2c

Show Patriotism

The Montreal Herald Urges Canadians to Favor Canadian Goods.

The Montreal Herald in a display article on its front page says:

"A Montrealer who has recently decided to erect a large building was complaining the other day that his architect had just been telling him that for a large amount of the material to be used in the building he would have to go outside of Canada.

Whatever of truth there is in this statement, it is clear that two things should be done: Canada should seek to supply this home demand by investing capital in industrial enterprises created for the purpose of manufacturing to meet it, and there should be a persistent campaign to induce Canadians to buy Canadian made articles. The Manufacturers' Association has already done a great deal in this connection, but much more has yet to be done. Architects and builders should be requested by owners to specify and supply Canadian-made materials as far as possible; housekeepers should demand Canadian goods whenever in quality and price they are not too far removed from the imported article; retail merchants should show their patriotism by promoting in every reasonable way the sale of Canadian instead of foreign goods; and all buyers should keep fixed in mind the proposition that it is sound business to encourage home industries so long as they are doing their duty by producing wares of good quality at reasonable prices.
